

## Standing Firm

Dearest Nationals

The South African Assembly led by Pierre, is standing strong despite the consistent attack on our characters by people who would see us fail. Who indeed are actively working at that outcome.

We choose the path of dedication to our cause, we choose to live by the future we wish to see where bad mouthing people based on hearsay and accusations without forensic proof is not done no matter how we feel. We are here to serve you in the quest for self determination and the protection of your rights as a living soul.

We have said what we have absolutely needed to say in our public notices. We thank our detractors for making our names known to all. We couldn't have done it better.

We have the communicated **unwavering support of GFG** key personnel, who know who we are and what we do.

We are not power hungry or fickle in our support of our volunteers. We do not seek outside help to fight our battles and we do not denigrate people that are in this freedom for the living movement.

To see the **nature of a tree**, look at its **fruits**.

What's happening to us, could happen to you. Be aware.

**The court of public opinion has fools for jurors.** Don't be a fool, apply critical thinking, and that starts with the simple question of 'why?'

- Why choose chaos instead of cooperation.
- Why is the accuser demanding to be king.
- What can be gained from the havoc, except the destruction of people's hope for a better tomorrow.

GFG is working hard at releasing prosperity to the people. We are working hard at self determination after prosperity, and a place on the land where all people count, and are held to account in self governing.

**Don't be distracted, don't be alarmed.** Look into your heart and choose who you feel resonates with the life you wish for us all to have.
